

Last fall during the run up to the general election I was receiving 4 - 6 calls a day on my cell phone from Republicans and Democrats asking that I vote one way or the other. I was charged for those calls. They even left voice mail for me. Almost all were prerecorded calls. The ones that were not when I complained informed me that it was not against WI no - call law, because they were political calls that are allowed by law. My view is the No-Call list for cell phones should be total no-call.

Thanks, Jim Bass
